Lowprofile	Coreless	30105	RSx-One10 Response					◎	◎	◎	◎				
		30104	RSx-One10					○	○	○	○	◎	◎		
	Brushless	30205	BSx2-one10 Response					◎	◎			○			
		30206	BSx2-one10 Power									◎	◎		
Mini	Coreless	30114	RSx-12							○	○		◎		

\*For big tires, PDS-251x ICS & 253x ICS LED are recommendable.

**Coreless Motor**

Capable for every kinds of circuit surfaces & categories, owing to its well-matched design of response and torque setting.  
 Recommendable for circuits with large corners because of its smooth quick turning functions  
 Must be used for carpet circuit

**Brushless Motor**

Good for asphalt circuit with low grip, owing to its retainability  
 Recommendable for circuits with small corners  
 Useful for GP racing because of its power saving design

**Remarks:**

\*Make sure to check the dimensions of servos to fit with your car before use.
